Improve your team's efficiency and communication tools wherever they are with the XC360 complete business communications service.

Whether you need to deliver client requirements to schedule, hit sales targets, never miss a lead, or communicate effectively with branch offices, reliable and professional telephony is crucial.

- Scalable – and can grow as you need and on demand without expensive upgrades or installing new lines.
- Adaptable – reroute calls and enable calling features in seconds, a phone system built around your needs.
- Take your office number wherever you go, on iPhone, android, windows or MAC, so you never miss a call or lose an opportunity.
- Record calls on demand so you can refer back when needed and capture only the information you want.
- Uptime Guarantees ensure your system is always available, but built in disaster recovery solutions mean you can have access to your incoming and outgoing calls if disaster hits your offices.
- Report on your individual team members usage to invoice accordingly and measure performance for future improvement.
- Feature and performance upgrades included as standard.
- Maximum return with minimal investment - NO capital expenditure on expensive PBX or handsets.
- Fully supported and managed so you never need to worry about configuring and maintaining your telecoms.

69%

of people who call a business will hang up instead of leaving a message. That means they call someone else, probably your competitor.

SOURCE: BT

73%

of interactions in the UK are still telephone calls, despite the prevalence of the internet.
